

# ARUNACHALAM B

## MERN Stack Developer

Tuticorin, India | 8124098906 | arunsathish9556954@gmail.com

### PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with hands-on experience building scalable, secure, and real-time web applications. Strong expertise in RESTful API development, JWT-based authentication, and Socket.IO-driven real-time systems. Proven ability to design clean, modular architectures, optimize application performance, and seamlessly integrate frontend and backend technologies to deliver production-ready solutions.

### TECHNICAL SKILLS

- Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap
- Backend: Node.js, Express.js, ASP.NET Core (C#), RESTful APIs
- Database: MongoDB, Mongoose, SQL (Basics)
- Real-Time & Security: Socket.IO, JWT Authentication, Middleware Architecture
- Tools & Practices: Git, GitHub, Postman, VS Code, MVC Architecture
- Core Competencies: CRUD Operations, Error Handling, Pagination, Filtering

### PROFESSIONAL EXPERIENCE

**Icanio Technologies** — Software Development Intern | Sept 2024 – Dec 2024

- Developed and maintained RESTful APIs using ASP.NET Core, adhering to clean architecture and scalability best practices.
- Designed a Communication Hub module as a centralized interaction layer, reducing component coupling and improving system reliability.
- Implemented JWT-based authentication and authorization to secure sensitive endpoints and user data.
- Engineered backend features including server-side pagination, filtering, and centralized exception handling.
- Collaborated in an Agile environment to refactor legacy code and improve overall application performance and response time.

### KEY PROJECTS

#### Real-Time Chat Application | MERN Stack & Socket.IO

- Engineered a full-stack chat platform with live messaging and real-time online/offline status tracking.
- Managed bi-directional, event-driven communication using Socket.IO.
- Secured application routes with JWT authentication and implemented a modular backend architecture.

#### Full-Stack Blog Application | MERN Stack

- Built a comprehensive blog platform supporting CRUD operations, pagination, and search-based filtering.
- Integrated MongoDB with Mongoose for schema design, relationships, and optimized queries.
- Developed a responsive React.js UI using reusable components and efficient state management.

#### CRUD Operations Management Application | MERN Stack

- Developed a full-stack application using React.js (frontend) and Node.js + Express.js (backend).
- Built robust RESTful services to handle complete CRUD workflows with MongoDB integration.

- Implemented Express middleware for request validation and centralized error handling.
- Followed MVC architecture to clearly separate controllers, routes, and data models.

## **EDUCATION**

Bachelor of Engineering (B.E) – Computer Science & Engineering  
VV College of Engineering | 2022 | Aggregate: 75%

## **CERTIFICATIONS & LANGUAGES**

- Java Full Stack Developer – Accord Info Matrix, Chennai (2024)
- Languages: English (Professional), Tamil (Native)
- Availability: Immediate Joiner
