

ARUNACHALAM B

Full Stack Developer

Tuticorin, Tamil Nadu | +91 8124098906 | arunsathish9556954@gmail.com | <https://dhananjeyaa.github.io/portfolio/>

PROFESSIONAL SUMMARY

Passionate Full Stack Developer with hands-on experience building real-world applications across the complete development stack. Proven ability to design responsive user interfaces and develop secure, scalable backend APIs using Node.js and ASP.NET Core. During internship, contributed to enterprise-grade backend systems with a focus on API architecture, performance optimization, and maintainable code. Eager to learn new technologies and deliver efficient, user-friendly applications.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js, ASP.NET Core, C#.

Database: MongoDB, MySQL

Authentication & Real-Time: JWT Authentication, Socket.IO

Tools: Git, GitHub, Postman, VS Code

Concepts: REST APIs, CRUD Operations, MVC Architecture, Error Handling, Pagination, Filtering

PROFESSIONAL EXPERIENCE

Software Development Intern | *Icanio Technologies* | Sept 2023 – Dec 2023

- Developed RESTful APIs using ASP.NET Core with clean and scalable architecture
- Implemented JWT-based authentication to secure API endpoints
- Built features including pagination, filtering, and centralized error handling
- Improved code structure and maintainability through modular design patterns

PROJECTS

Trade Management Platform — *Icanio Technologies* | *ASP.NET Core, MySQL*

- Developed RESTful APIs with validation, error handling, and audit logging
- Built a Communication Hub module to improve interaction between system components
- Improved system reliability through clean, maintainable architecture
- Handled real-world edge cases during API development and testing

Real-Time Chat Application — *Own Project* | *MERN Stack + Socket.IO*

- Built a real-time messaging system with live chat using Socket.IO
- Implemented user online/offline status tracking
- Secured all API endpoints using JWT-based authentication

Full-Stack Blog Application — *Own Project* | *MERN Stack*

- Developed a full-featured blog platform with CRUD operations, search, and pagination
- Designed optimized MongoDB schema and improved database query performance
- Built a fully responsive UI using React.js

EDUCATION

B.E – Computer Science & Engineering | VV College of Engineering | 2022 | 75%

CERTIFICATIONS

- Java Full Stack Developer – Accord Info Matrix (2023)
